

Why join EP100?

The business case

EP100 is a global corporate energy efficiency initiative, led by Climate Group, bringing together over 125 ambitious businesses committed to improving their energy efficiency.

1. Energy efficiency is an important first step

Every single net zero conversation must begin with energy efficiency. By improving the energy efficiency in their buildings, processes, and products, EP100 members are showing climate leadership and future-proofing their businesses.

2. Carbon down, profits up

Our members have seen collective savings of USD \$140 million and more than 1,085 TWh of energy in 2022, through implementing energy efficiency practices. Optimise your energy use and see the financial savings and emissions reductions.

3. Be a leader and create change

EP100 is a platform for leading companies to set a public energy efficiency target and commit to it. We believe all organisations should prioritise energy efficiency practices and increase ambition to reduce their emissions and show accountability. By joining EP100, you help showcase the importance of energy efficiency and the difference it can make in climate action.
